

Term 4

STOP Motion

DETAILS

From Wallace and Gromit to the Fantastic Mr Fox, stop motion animation is an accessible and fun way to start your film-making career.

In this course we will look at creating backgrounds, sounds and lighting, writing your script, and the technical skills and tools needed for stop motion animation.

You will then create your own stop motion film to present at the PEAC Film Festival!

WHAT TO BRING

All students should bring in recess and lunch, a water bottle and hat.
